Consistently outstanding performance, even in high turbidity water

Unique pretreatment system features pleated membrane with a large surface area

Compact design has nearly the same footprint as the Everpure High Flow CSR Quad System

Choose a mounting location capable of safely supporting the full weight of the components when in operation

Use 3/4" water line

Fountain equipment connections are made to the outlet part of the system before the Everpure 2SR-BW Cartridge

Coffee brewer and ice machine connections are made after the Everpure 2SR-BW Scale Inhibitor Cartridge; a tee is required

Install vertically with cartridges hanging down and allow 5" (12.7 cm) clearance below the cartridge for easy replacement
